Hamilton City Community Project

Community Action Partnership builds a great partnership with North Valley Hockey and Sports Complex to develop a Hamilton City Based Sports and Community Complex.

Saturday, May 14, 2011 was a glimpse of what partnerships and community support can accomplish. North Valley Hockey and Sports Complex (NVHSC), The Community Action Partnership (CAP), Hamilton City's United Families, Recology Butte-Colusa Counties and Darryl's painting collaborated to work on painting the interior of the building as a first step in getting a facility located in Hamilton City ready for the community. There were over 50 volunteers who attended or helped out with this event. This was the first of many community projects that NVHSC and Community Action Partnership hope will develop by including community members and partners organizations.

Established in 1988, The Community Action Partnership (CAP) is committed to working to reduce poverty in its local community by helping to ensure that available local, state, private, and federal resources assist low-income individuals and families to acquire useful skills and knowledge, gain access to new opportunities, and achieve economic self-sufficiency.

North Valley Hockey and Sports Complex is an inline roller hockey league located in Chico, California. Established in 2003, it is a non-profit, all volunteer organization, dedicated to teaching the sport of inline hockey to boys and girls ages 6 to 18.

The NVHSC organization has chosen to invest in the Hamilton City community. The project will consist of building a roller rink, with potential possibilities of indoor soccer, basketball and other community based activities. They bring to the community a new sport, a new venue, and numerous opportunities for the community members and potential partners. Community Action Partnership has been working with NVHSC to bring in community support and embracement of this amazing project.
